TRANSiTION Train the Trainers Programme

Are you ready to take your training skills to the next level and become a driving force for digital transformation in healthcare?

Join our exclusive **EU-funded TRANSiTION (ID: 101101261) Train the Trainers (ToT) programme** and become a catalyst for change in the healthcare industry!

As the demand for digital literacy in healthcare continues to grow, the need for skilled trainers who can effectively deliver these essential digital skills and promote digital literacy has never been greater. Our ToT programme is designed to provide you with the expertise and resources you need to deliver high impact training to healthcare professionals.

Here's why you should join our TRANSiTION Trainers programme:

Digital Health and Training Methodologies Curriculum: Designed by experts to address the specific needs and challenges of healthcare professionals. Moreover, you will learn training methodologies that will enhance your effectiveness as a trainer.

Practical application: You will have the opportunity to participate as a trainer in the TRANSiTION pilot training course for HCPs and non-clinical professionals as health managers.

✓**Networking opportunities**: Connect with other trainers who share your passion for digital healthcare education.

Certification and recognition: Upon successful completion of the programme, you'll receive training programme accreditation

TRANSiTION

Key information:

The ToT programme is primarily delivered **online in a MOODLE platform**, allowing participants to engage in virtual learning activities from anywhere. In addition, participants will have the opportunity to attend on-site workshops at selected locations.

The course platform will be accessible **from July to September 2025**.

Our training methods include interactive presentations, engaging lectures, case studies, and informative videos to cater to diverse learning styles and ensure maximum retention of knowledge.

Each program section is followed by **self-assessment** questions and a final quiz covering all sections will be administered at the end of the program.

The program is offered **free** of charge to all participants. This includes access to all program materials, virtual learning platform, and **certification** upon successful completion.

FREQUENTLY ASKED QUESTIONS (FAQS)

What qualifications or experience do I need?

We welcome applicants with the following professional backgrounds: oncology nurses, general medicine practitioners, radiation oncologists, surgical oncologists, medical oncologists, and non-clinical professionals as health managers, aligning with the various areas covered in the training program. While prior experience in the field of training is preferred, we also encourage individuals with limited experience who possess the qualifications mentioned above to apply for participation in the program.

Can I participate in the training program if I have limited experience in training?

Basic knowledge in training and engagement of adult learners is only desirable, not mandatory.

What topics and skills will be covered during the training sessions?

You can see the full curriculum on the following link: https://e-oncologia.github.io/docs/transition_cv.pdf

How long is the training program, and what is the time commitment required?

The Train the Trainers curriculum is approximately 10 hours in length and will be available on the course platform between July 2024 to September 2025. In turn, specialised modules will be tailored to each participant's profile, each with a unique duration as shown in the Figure 1.

The commitment entails completing the training program and being available to serve as trainers during the pilot program scheduled to take place from September 2024 to September 2025 (optional).

TRANSiTION

Will I receive a certification upon completion of the program?

The course is accredited by ACOE (Accreditation Council of Oncology in Europe) and offers micro-credentials. Participants can earn CMEs (Continuing Medical Education) or CNEs (Continuing Nursing Education) depending on their pathway: 56 CMEs for Train the Trainers, 33 CMEs for General Practitioners, 49 CMEs for non-clinicals, 53 CMEs for Oncology Specialists, and 57 CNEs (accredited by EUAB-CNE) for nursing professionals.

How will the training sessions be conducted? Are they in-person, online, or a combination of both?

The program will be delivered online via an external Moodle platform, with optional in-person sessions. Our training methods include interactive presentations, lectures, case studies, and informative videos. Each program section is followed by self-assessment questions.

Are there instructors and facilitators leading the training sessions?

The course is taught online with self-learning resources. Both the module materials and the assessment activities are designed so that you can progress at your own pace and check your progress, learning autonomously. While you are taking the course you will have the support of an expert tutor to resolve any doubts and queries you may have.
