

National & European Parliamentarians for Cancer Action

Working across borders to beat cancer inequalities!

Inequalities exist in all areas of the cancer care continuum, including in respect to:

National & European Parliamentarians for Cancer Action brings together national and European cancer policy champions from across the political spectrum and across countries with a common cause of accelerating improvement in cancer care.

CATALYSING POLICY ACTION TO ACHIEVE THE 70:35 VISION FOR CANCER PATIENTS

The 70:35 Vision for cancer is possible: achieving an average of a 70% long-term survival rate from cancer by 2035 across Europe.

To reach this goal we need:

- precise data on where to prioritise improvement efforts;
- prompt sharing and uptake of best practices across countries;
- political action on cancer in all countries.

National & European Parliamentarians for Cancer Action aims to bring together elected representatives with a passion for improving the fight against cancer. We invite you to join and become a prominent part of a change movement.

National & European Parliamentarians for Cancer Action will be a crucial platform for pan-European cancer policy action. Our work will focus on:
